ypetrov@kentlaw.iit.edu

Dear Sir/Madam,

I studied and got my LL.M. at Chicago-Kent College of Law, with a law degree from my home country, Ukraine. I graduated in May 2017.

I am looking for a opportunity in the company where I can use skills which I obtained studying in the United States. It would be a great experience for me to be a part of such company and a good opportunity to help people who need legal advice, but more importantly, the legal training I have already received back home would make me an asset to your office and its clients. With my background, I could be very useful in solving real problems to make someone's life better. I would also welcome the chance to learn from other practicing attorneys to further hone my own skills as a lawyer.

If given the opportunity, you will find that I am experienced in working with clients and giving professional advice. I have lots of ideas and enthusiasm. I am a strong creative thinker, adept at finding many ways of resolving different problems. I always try to find the fastest and the most productive way to satisfy clients' needs. I am scrupulous person who always pays attention to detail and is ready to work hard.

At Kent, I really enjoyed the opportunity to study and socialize with people from not only all different walks of life, but also all different counties. My time at Kent provided me with a lot of new experience and the desire to share it with students and other people. I am excited to work with different problems and different types of people and believe that my diverse cultural experiences will be of benefit to your office and its clients.

I am looking forward to speaking with you further regarding your available position.

Yours Faithfully,

Yehor Petrov
